

Serial No. 10/820,375

Attorney Docket No.: 070375.00003

Amendment in Response to Notice of Drawing Inconsistency with Specification

REMARKS

With entry of this amendment, Applicant corrects the noted inconsistency between the Brief Description of the Drawings in the specification and Figure 11. No new matter has been added.

CORRECTION OF THE BRIEF DESCRIPTION OF THE DRAWINGS

The Notice of Drawing Inconsistency with Specification notes that an inconsistency exists between the Brief Description of the Drawings in the specification and the drawings, specifically Figure 11. Figure 11 is contained in the drawings, and referenced in the specification, but is not listed in the Brief Description of the Drawings in the specification.

By way of this Amendment, applicant amends the Brief Description of the Drawings by adding a brief description for Figure 11. The brief description is taken from the specification, page 35, second paragraph which begins:

Referring to FIG. 11, a high level structural diagram of a preferred embodiment of the present invention is shown relating to how a customer can provide and /or append COA history, such as old COA information ...

Therefore, Applicant believes that no new matter has been added to the specification with this Amendment, and the noted inconsistency has been corrected.
